

K-GUARD

Field Installable, Custom Molded K-MASS[®] Enclosures

K-GUARDS are field installable Passive Fire Protection (PFP) covers, custom designed to allow field installation on existing Critical Process Control Equipment (CPCE). Constructed from molded **K-MASS**[®] and tested in compliance with the UL1709 fire test curve, K-GUARDS provide protection for a minimum 30 minutes when exposed to a rapid temperature rise, in excess of 1093°C/ 2000°F. Levers and wheels can be extended outside the covers allowing equipment to be operated without removing the K-GUARD.

K-GUARD Advantages

- Exceeds the requirements of API 607 for valves
- Can be installed on fully operational equipment to meet UL 1709
- Can be retrofitted on previously installed equipment
- Available with fireproof glass/windows
- Allows testing without removal of the K-GUARD
- The split cover, clam shell design provides easy maintenance access
